**AS ADOPTED BY THE
BOARD OF SUPERVISORS
ON JANUARY 30, 2007**

January 30, 2007

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**REVISED FEDERAL AGENDA FOR THE 110TH CONGRESS
(ALL DISTRICTS AFFECTED) (3-VOTES)**

This letter recommends revisions and additions to the County's Federal legislative policies, which together with other positions previously adopted by your Board, would guide our Federal advocacy efforts during the 110th Congress that convened on January 4, 2007. The updated policies have been developed in coordination with County Departments, the Legislative Strategist, and our Washington, D.C. advocates.

THEREFORE, IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the revisions and additions to previously adopted Federal legislative policies, as presented in the attachment to this letter.
2. Instruct the Chief Administrative Officer, affected departments, the County's Legislative Strategist, and the County's Washington, D.C. advocates to work with the Los Angeles County Congressional Delegation, other state and local governments, and interest groups to pursue the goals and policies in this Federal Agenda.

INTRODUCTION

The 110th Congress has convened with Democratic majorities in both houses of Congress for the first time since 1994. As in most of the 1990s, the Federal government is divided with one party controlling the legislative branch and the other, the executive branch. Similar to the last decade, we expect a more fiscally conservative Federal government

with a renewed emphasis on reducing the Federal budget deficit, which has grown significantly since Federal Fiscal Year (FFY) 1999 when there was a budget surplus.

The House has reinstituted a "pay-as-you-go" (PAYGO) rule, requiring legislation which would increase direct (entitlement) spending or decrease revenues to include offsetting spending cuts or revenue increases. The Senate has a PAYGO rule, which does not apply if the Congressional budget resolution assumes a spending increase or tax cut. In effect, PAYGO makes the Federal budget a "zero-sum" game in which it becomes more difficult to secure increased funding under entitlement programs, such as Medicaid, Temporary Assistance for Needy Families (TANF), Title IV-E Foster Care and Adoption Assistance, and child support enforcement, which together provide most of the Federal revenue received by state and local governments, including the County of Los Angeles. Even though the Democratic Congressional majority may be more supportive of such programs, the PAYGO rule and a fiscally conservative budget climate will make it difficult to enact legislation which would increase Federal revenue for the County, such as legislation to restore child support enforcement funds that, otherwise, will be cut beginning in FFY 2008, pursuant to the Deficit Reduction Act of 2005.

OVERALL FEDERAL LEGISLATIVE PRINCIPLES AND GOALS

Federal revenues account for nearly one-fourth of total County revenues and much of our State revenues are determined by Federal policies which govern programs, such as Medicaid, CalWORKs, and foster care. County costs also are affected directly by Federal mandates and indirectly by Federal policies on immigration, the economy, health, and welfare. Under State law, the County is mandated to provide General Relief and medical assistance to indigent residents who are ineligible for Medicaid, Supplemental Security Income, TANF, and other Federal public assistance programs.

In light of the State of California's continuing budget deficit, maintaining or increasing Federal funding for the State and County is even more critical. Moreover, maintaining or increasing Federal health funding under Medicaid and the State Children's Health Insurance Program is especially important in order to expand health coverage to more of the State's uninsured and to maintain the existing health safety net in California. Medicaid alone accounts for more than half of total Federal aid to State and local governments, nationally. California alone received more than \$22 billion in Medicaid payments during FFY 2005.

Similar to recent years, we expect that the County will have to lobby aggressively to protect its current Medicaid revenue. The Administration continues to seek a cap on Medicaid payments to government providers, such as the County, and to restrict the use of intergovernmental transfers and provider taxes which have been important sources for financing the non-Federal share of Medicaid (Medi-Cal) in California.

It also is more important than ever that California and the County secure a greater share of available Federal resources. California is the biggest "donor" state, paying far more in Federal taxes than it receives in Federal spending. According to the California Institute, Californians paid \$50 billion more in Federal taxes than the State received in spending during FFY 2003. California has been hurt by inequitable allocation formulas and the practice of earmarking funds for specific projects which generally advantages states with small populations at the expense of more populous states. According to Citizens Against Government Waste, California ranked 43rd among states in terms of "pork" funding per capita in FFY 2006. It received only \$20.30 in earmarked funds per capita, compared to \$489.87 for Alaska, which received the most per capita of any state. In recent years, California has been hurt by the growing percentage of criminal justice funds that have been earmarked for specific projects rather than appropriated for formula grant programs, such as the State Criminal Alien Assistance Program (SCAAP). California receives roughly 40 percent of total SCAAP funding, but only about 5.5 percent of the combined \$470 million in funds that were earmarked for specific projects under the COPS Law Enforcement, Methamphetamine Enforcement, Juvenile Justice, and Edward Byrne Discretionary Grants. California and the County, therefore, would benefit if more funds are appropriated for SCAAP rather than earmarked for specific projects.

The County's Federal Agenda, therefore, has focused on maximizing Federal revenues, securing greater flexibility over the use of Federal funds, and lessening the impact of adverse Federal policies on County costs and decision-making authority. In addition, the County's current overall Federal legislative policies are to:

1. Support proposals which would provide a greater share of total available Federal funding to the County or California, and oppose proposals which would reduce the County's or State's share of total funding.
2. Support proposals which would provide local governments with greater decision-making authority over the use of Federal funds, and which provide for direct grants or mandatory pass-through allocations to large urban counties.
3. Oppose proposals which would impose new unfunded mandates on the County.
4. Oppose proposals which would finance increased spending for one program by cutting other programs of greater benefit to the County, or which would result in a net revenue loss or a cost shift to the County.
5. Support proposals to reduce or relax match requirements which hinder the ability of financially distressed state and local governments to receive or utilize Federal funds.
6. Support Federal fiscal relief for financially distressed state and local governments.
7. Oppose Federal preemption of State and local government authority.

Over the years, these overall legislative principles and policies have enabled the County's Washington, D.C. advocates to respond quickly to legislation and new proposals that could significantly affect the County. They also avoid the need for the Board to adopt repetitive policies to apply the same principle, such as support for a greater share of total funding, to numerous programs or policy areas. These principles and policies are especially important in the current budget environment in which there is fierce competition for limited resources.

REVISIONS TO SPECIFIC POLICIES ON FEDERAL ISSUES OF COUNTY INTEREST

This letter recommends revisions to existing Board-adopted Federal legislative policies, which are shown in the attachment with new language underlined and printed in bold. The recommended revisions cover a number of major issue areas of County interest, such as health, mental health, children and family services, homeland security, justice, housing and homeless assistance, transportation, and communications. The changes include adding a new section of policies relating to the reauthorization of the State Children's Health Insurance Program (SCHIP), which is implemented through the Healthy Families Program in California. Key SCHIP reauthorization issues will include the overall annual funding levels and program allocation formula. Some states have had SCHIP funding shortfalls while others, such as California, have not expended their entire allotments within the statutory three-year time limits.

Policies also were added to support proposals and funding which would reimburse the County for costs resulting from Federal immigration policies, and to support increased Federal resources to identify, apprehend, deport, and prosecute criminal aliens. Immigration will continue to be a major issue in the 110th Congress. It is important that the Federal government bear financial responsibility for the cost of its immigration policies over which state and local governments have no control.

This letter does not recommend any changes to existing Board-adopted funding priorities for individual appropriations bills, which fund discretionary programs. These funding priorities include programs, such as SCAAP and the Ryan White CARE Act, in which the County receives a relatively high share of total funding. They also include programs which help the County meet its responsibilities for providing essential services, such as public safety, homeland security, health, mental health, social services, employment and training, transportation, housing, and community development. Neither the County's needs nor responsibilities have changed in a way that requires any revisions to the County's appropriations priorities.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

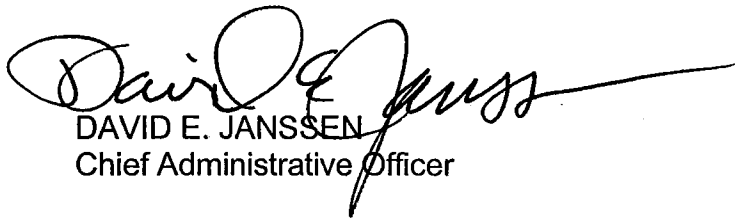

The proposed legislative policies in this Federal Agenda are consistent with the County's Strategic Plan Goals, specifically Organizational Effectiveness and Fiscal Responsibility. Adoption of the proposed Agenda will allow the CAO and the County's Washington, D.C.

advocates to respond quickly to legislation and proposals that could significantly affect the County, such as potential new mandates and changes in program funding or local flexibility over the use of Federal funds. In addition, adoption will allow pursuit of legislation, and support of proposals, related to specific program areas to improve the efficiency and effectiveness of County programs.

CONCLUSION

The updated legislative goals and policies, as revised by this letter, would guide the County's Federal advocacy efforts in Washington, D.C. during the 110th Congress. As in the past, the Federal Agenda will be updated to reflect any subsequent actions taken by your Board.

Respectfully submitted,

DAVID E. JANSSEN
Chief Administrative Officer
